SUMMARY

Web and mobile developer building with React, Next.js and React Native. I've shipped two production websites for real clients and led a team of four to build a pregnancy and baby-care app. Years in customer-facing roles taught me to explain technical things clearly. Currently in a Higher Technical Course in Multimedia Product Development (IEFP, 2026–2027) with a 500-hour internship.

PROJECTS

Cuddly — Pregnancy & Baby-Care App

[View project ↗](#)

Team lead & tech lead (team of 4) · React Native · Expo · TypeScript · Firebase

Mobile app for tracking pregnancy and a newborn's first months (contractions, feeding, sleep, appointments), shared live between caregivers. I chose the stack and built most of the features, including the trackers and the Firebase sync. Android APK available.

Habilux — Real Estate Agency Website

[View project ↗](#)

Client project · Next.js · React · TypeScript · Tailwind CSS v4 · Sanity CMS · Vercel

Website for a real-estate agency, with listings imported from Imovirtual (137 properties), dynamic filtering, and ISR caching for fast page loads.

Taysil — Industrial Products Catalogue

[View project ↗](#)

Client project · Next.js · React · TypeScript · Tailwind CSS v4 · Sanity CMS · Vercel

B2B product catalogue that the client updates themselves in Sanity, with WhatsApp contact buttons and SEO built in.

WORK EXPERIENCE

Electronics Repair Technician

Nov 2025 – May 2026

Worten Resolve · Viana do Castelo

Hardware diagnostics, software repair, and technical support for consumer electronics. Direct customer-facing technical assistance.
